PROPOSED RULE MAKING
280 C3 - 25 KW
HAWKINSVILLE, GEORGIA
April 1992

1. This Technical Exhibit supports the request of Tri-County Broadcasting Company, WCEH-FM Licensee, to change the FM Table of Allotments, §73.202 of the Commission's Rules, by substituting Channel 280C3 for the presently assigned Channel 280A at Hawkinsville, Georgia and ordering WCEH-FM to the higher power channel.

2. The reference coordinates of 32° 10' 32" North Latitude and 83° 39' 11" West Longitude clear all allocation requirements. Please note that MM Docket No. 91-336 (RM-7757) has ordered the allocation at Unadilla, Georgia be changed to Channel 260A and ordered WEGC, Leesburg, Georgia to Channel 278C3. Additionally, please note that MM Docket No. 89-417 (RM-7252) orders WXRS (FM) at Swainsboro, Georgia to change to Channel 245A. The changes ordered in these dockets cause this proposal to be adequately spaced to all remaining constraints. The reference site will allow the 3.16 mV/m city grade signal over the entire city of Hawkinsville, Georgia.

3. Exhibit #1 is the computer Allocation Study for Channel 280C3 from the proposed reference. Exhibit #2 is a drawing of the area where 280C3 can be constructed fully spaced.

4. When Channel 280C3 is assigned to Hawkinsville, Georgia, Tri-County Broadcasting Company will file a timely application (FCC Form 301) to construct the expanded facility.
